

Missions Workbook

1. Study one lesson per month
2. Have a scrapbook for each child. This could be a sturdy notebook with sheet protectors to store information about each mission lesson presented.
3. Include pictures of the missionary; his work; map of the country; historic facts; something about the people and their culture; geography. Use as many pictures as needed since this age children aren't readers yet. Include such things as: letters, samples of currency, native materials, and small national flag or picture of one, pictures of the people and culture, etc.
4. Add to their scrapbook each month, and send home at the end of their Sunbeam year.
